

The PMOD tools form a comprehensive environment covering all needs for quantitative image processing.

For more than 10 years we have been developing software for the quantification of molecular data.

Proven by our scientist users in over 250 premium PET sites.

Choose among our flexible tools and get immediate access to state-of-the-art solutions.

General Kinetic Modeling (PKIN)

Pixel-wise Modeling (PXMOD)

Cardiac Modeling (PCARD)

Alzheimer's Discrimination (PALZ)

Normal Brain Databases (PBRAINDB)

Image Fusion (PFUS)

3D Image Rendering (P3D)

Image Viewing & VOIs
+ DICOM Data Base (PBAS)

Windows | Linux | Mac OS X
