PMOD Upgrade Promotion v4.2

(November 1, 2020 - February 28, 2021)

PMOD aims to equip researchers with best-in-class software tools for biomedical imaging research in humans and animals. PMOD's annual software versions reflect the progress in this fast-moving field. With the advent of v4.2, we want to give our customers a one-time chance to acquire a cumulative upgrade of their licenses at privileged terms (avg. 1/3 off regular cost).

PMOD provides new versions at an annual pace in October each year, with the latest annual version v4.2 having been made available in October 2020. It comprises a number of substantial extensions and improvements, as described in the *Preview of PMOD Version 4.2* (www.pmod.com/open/pmod-preview.pdf) and further detailed in the *PMOD Release Notes* (www.pmod.com/open/ReleaseNotes.pdf).

For licenses purchased in base version 4.1, the v4.2 upgrade will be available for free (with the purchase of any new PMOD license, the first annual upgrade is included), whereas for older licenses, the upgrade is at cost. The price for upgrading a PMOD license to v4.2 is based on upgrade steps, that is, the number of consecutive versions needed to reach v4.2. The cost per module and upgrade step is published in www.pmod.com/open/pmod-upg-ext-mtn.pdf. During the 4-month period following the launch of v4.2 (Nov. 1, 2020 – Feb. 28, 2021; 90-day validity of quotes), existing PMOD licenses may be upgraded to v4.2 at promotional terms. The reference of the pricing is the full Cost of a New Module (CNM) – see www.pmod.com/open/order.html. The following **promotional scheme** does apply:

Upgrade Path	Promotion	Steps Involved	Regular
v4.1 → v4.2	**20%**	1 step: upgraded v4.1 → v4.2	30%
v4.0 → v4.2	**30%**	2 steps: upgraded v4.0 → v4.1 → v4.2	50%
v3.9 → v4.2	**40%**	3 steps: upgraded v3.9 → v4.0 → v4.1 → v4.2	60%
v3.8 → v4.2 & below	**50%**	4 steps: upgraded v3.8 → v3.9 → v4.0 → v4.1 → v4.2	90% (70%)

Example: a license was acquired in spring 2016 and no upgrade was purchased ever since → base v3.8 incl. free upgrade to v3.9 (as per Delivery Note) → "v3.9 → v4.2" → 40% x CNM. **Your savings: 33%.**

License Extensions

Adding further modules to an existing license ("license extension") is always possible. In case a license is upgraded under the v4.2 upgrade promotion, additional modules may be acquired at a **promotional discount of 20%.**

Advance Purchase of v4.3 Upgrade

On top of the v4.2 upgrade, the annual upgrade to v4.3 (October 2021) may be acquired in advance. Under the v4.2 upgrade promotion, the **special rates 20% (academic) and 25% (commercial)** are applicable.

Start Your Maintenance Agreement

PMOD's maintenance agreements (support service agreements) are aimed at customers wishing to work always with the most recent PMOD version and to benefit from privileged support and training. The agreements comprise the annual version upgrade together with intermediate maintenance builds at a privileged rate (20% for academic, 25% for commercial customers, instead of the regular 30%) and include a list of further services. PMOD will be glad to issue a customized agreement, together with a companion quote for the initial subscription / v4.2 upgrade, all under the **privileged terms of the upgrade promotion.**

Quotes and Draft Agreements
